# Welcome to Flintshire County Council's Council Plan for 2021/22

**Colin Everett**  
Chief Executive

This latest version of our Council Plan sets out our priorities for the forthcoming year and the big things we aim to achieve. Flintshire prides itself on being a council which performs highly for its local communities, and one which is guided and motivated by a set of strong social values.

Flintshire is a well-governed and progressive council. We continue to perform well as a direct provider and commissioner of public services, and as a partner to others.

The past year has been a year like no other. Despite all of the disruption caused by the pandemic we have not faltered in maintaining our high performance and in planning ahead for the betterment of the communities of Flintshire.

Within this year's Plan there is a big emphasis on recovering from the pandemic and supporting the most vulnerable. We also make some big commitments to being a Green Council. Life during the pandemic has taught us that we should value the natural environment and that adjustments to our life styles can reduce our own personal carbon footprint.

The Plan sets out the Council's priorities under six themes:-

- Poverty
- Affordable and Accessible Housing
- Green Society and Environment
- Economy
- Personal and Community Well-being
- Education and Skills

Each theme has specific objectives and action where we aim to make impact this year and in the longer term.

**Ian Roberts**  
Leader of  
the Council

# Setting Our Priorities and Judging our Performance

The priorities for Flintshire as a County are set by the Council and its local public sector partners. We work together as a Public Services Board (PSB) combining our resources for the benefit of Flintshire.

The in-year priorities shown with a  symbol denote those we share with our partners. These have been selected for special attention as part of our Well-being Plan where we believe that concentrated effort by the partners working together can and will make a big difference to the communities of Flintshire. These in-year priorities for the Flintshire PSB are:

- Community Safety
- Healthy and Independent Living

Our Flintshire Public Services Board partners include: Betsi Cadwaladr University Health Board, Natural Resources Wales, North Wales Fire and Rescue Service, Public Health Wales, North Wales Police, National Probation, Flintshire Local Voluntary Council, Coleg Cambria, Glyndŵr University, Welsh Government and local Town and Community Councils.

The Council has also set a number of priorities for itself as an individual partner organisation. Setting priorities helps us focus our attention and resources on the things that matter most - these priorities are echoed in the Council's Business Plans. We are legally required to set priorities known as Improvement Objectives (under the Local Government (Wales) Measure 2009). We call these our Council Priorities.

In setting our Council Priorities we have to take a number of factors into account from Welsh Government policy, to the expectations of our key partners, to our legal responsibilities, to the views of local people.

We then set our targets, and judge our performance against them by using a wide range of information both quantitative (performance judged by numbers) and qualitative (performance judged by feedback, the results of consultation etc). Some of our objectives are about creating plans in order to achieve longer term goals. These will be developed within the year, and considered as part of our Overview and Scrutiny Committees' forward work programmes, and themselves lead to longer-term commitments and actions.

To help us know how well we are doing in meeting the expectations for our priorities, we have a series of 'measures' which we keep under regular review. These performance measures are set out for each of our in-year priorities page by page. They are detailed more fully in the supporting document 'Council Plan Part 2: How we Measure Achievement'. Each of our in-year priorities is described individually on the following pages. We provide information about:

- Our Wellbeing Objectives - The impact/long term outcome - what difference will be made
- Why the priority is important in 2021/2/2
- The national policy issues which impact on delivery
- What we will do
- How we will measure achievement?
- What some of our language means

We will let you know how well we have performed against our outcomes in two ways: regular reports to the Council's Cabinet and Scrutiny committees; and the published Annual Performance Report for 2020/21 (due in October).

# Following the Plan - An Easy Guide

The previous page sets out the Council's six themes and the in-year priorities for 2021/22.

Each standing theme is illustrated with a different colour. For example, **Education and Skills** is **blue** and **Economy** is **purple**. This colour coding should make the priorities easier to follow as the reader works through the document and also cross-reference to the Council Plan Part 2: How we Measure Achievement.

The Council has selected a number of the in-year priorities for special attention in 2021/22. Each of these selected in-year priorities then has a dedicated section later in the document.

For example on page 15 you will see the theme for Poverty. The Well-being objective for Poverty is defined as 'Protecting people from poverty by supporting them to meet their basic needs'. The areas contributing to achieving this is contained within the following five priorities:-

- Income Poverty
- Child Poverty
- Food Poverty
- Fuel Poverty
- Digital Poverty

The reasons for its selection are then explained following each of the priorities along with any national policy issues and an explanation of 'what we mean by'.

## What's changed for 2021/22?

The Council Plan is based on six themes which are further detailed with in-year priorities. The long-term outcomes and impacts tie to our Well-being Objectives set to meet the Well-being of Future Generations (Wales) Act 2015. We will be reporting on our progress to achieving our Well-being objectives in our Self-assessment.

In addition, the five-ways of working, known as the sustainable development principles, will be taken into account and reported on.

Long term outcomes and impacts are described for the remaining life of this Council up until the next full local elections, in one year's time.

The contents of the Plan are reviewed and changed annually.

# Regulation, Audit and Inspection

As a public organisation the Council is regularly inspected to examine and challenge its performance and effectiveness. This work is mainly undertaken by Audit Wales (AW), Estyn and the Care Inspectorate Wales (CIW).

The Council received a favorable Annual Audit Summary from the **Audit Wales** in September 2020. The overall commentary was *“The Auditor General certified that the Council has met its legal duties for improvement planning and reporting and believes that it is likely to meet the requirements of the Local Government (Wales) Measure 2009 during 2020-21.”*

**The most recent inspection by Estyn** on the Council’s education services was in June 2019. The favorable report, available on the Estyn website, found overall pupils in Flintshire make sound progress during their time in statutory education.

The **Care Inspectorate Wales (CIW)**, have an ongoing programme of engagement and inspection activity across Wales. In Flintshire this has included a positive annual letter from CIW, which reflects our strong performance throughout 2019/20. The findings in this letter are drawn from various focused activities throughout the year, and note strengths for the Local Authority in line with all four principles of the Social Services and Well-being Act (Wales) 2014. The strengths highlighted include:

- effective leadership evident at all levels with a supported workforce working towards a shared vision
- the use of Welsh language to build positive relationships with families
- commitment to the co-production of services in partnership with people, businesses and charities
- a strong focus on early help to support resilience and prevent families’ problems escalating
- active engagement in local and regional partnership working
- our innovations in supporting the quality of care in the domiciliary market, recruitment of care workers and investment in training and development of care staff

# Other Audit / Regulatory Activity

The Council prepares an annual summary of all external audit and regulatory activity. The last one was produced in March 2021 and was considered by the Council's Audit Committee. This report provided an overview of all local and national studies along with the Council's response.

## How Consultation Informs our Plan

The priorities set for this Council Plan were, from the outset, based on a wide range of previous consultations in service areas with both partners and representative groups (e.g. community safety, anti-poverty, education, economic development) and, in some cases, service users directly e.g. housing).

There has been no single intensive consultation exercise on the Plan itself, by local choice, given this background. Elected members, on behalf of the communities they represent, have contributed to setting the priorities of the Council and draw on their representative role to test the relevance of the Plan against local public opinion. This has been facilitated through the sharing of the draft Plan with all elected members and through its presentation at Overview and Scrutiny Committees. In addition, elected members have been consulted on the targets and milestones to be used to measure achievement of the Plan, ensuring that there is sufficient pace and ambition.

Consultation on all parts of the Plan is continuous with stakeholders. The Council remains open to feedback on the plan, and to amending it at any time.

# Council Plan Part 1 and 'Part 2: How we measure achievement'
