

**Action Point AP3b.6****Future Wales The National Plan 2040****Policy 22 – Green Belts in the North**

Policy 22 of [Future Wales](#) references the identification of a green belt around Wrexham and Deeside and is supported by the 'Regional Strategic Diagram' on p111 which shows an illustrative location of a green barrier.

The two maps below seek to transpose the indicative green belt onto an OS base map which also includes the green barrier (wedge) designations in the Deposit Plan.
