Dear Andrew,

**Flintshire Local Development Plan**

Members spoke recently about the above matter at the Council's Development Committee, having received some recent correspondence from the County Council that referred to the MAC Consultation Document.

Members resolved to reiterate to the County Council the position of the  which is to highlight and reinforce the need for sympathetic development in Holywell and Greenfield. This is seen as critical to the future growth and prosperity of the local community, and links into other aspirations of the Council such as better transport links and providing better housing and employment opportunities.

Yours sincerely,
