

**INDEX TO FLINTSHIRE BISHOP'S TRANSCRIPTS**  
**AT FLINTSHIRE RECORD OFFICE**

This is a comprehensive index of all the Bishop's Transcripts held at Flintshire Record Office on microfilm.

Bishop's Transcripts were copies of the parish registers sent annually to the Diocesan register. Very few survive before the middle of the 17th century, but they become more readily available from that period onwards. They can often be used to fill gaps in the local parish records, should these have been lost for any reason. Occasionally, an entry may appear in the transcripts which does not appear in the parish register, and vice versa, and there are sometimes discrepancies between the two records. It is always worth checking both records if in some doubt about a particular entry.
