(30MPH SPEED LIMIT) (AMENDMENT NO. 29) ORDER 202-**

STATEMENT OF REASONS FOR PROPOSING TO MAKE ORDER

It is proposed a 30mph transitional speed limit on New Brighton Road, New Brighton, Mold.

It is proposed to introduce a short length of 30mph speed limit in order to provide a suitable transitional speed environment between the existing national speed limit (derestricted road) and the 20mph restricted road within the village.

The Order is considered necessary in the interests of road safety, in accordance with the provisions of the Road Traffic Regulation Act 1984. The introduction of an intermediate 30mph speed limit will facilitate a more gradual reduction in vehicular speeds on the approach to the lower speed environment, thereby reducing the risk of abrupt braking, driver misjudgement, and potential collisions.

Furthermore, the proposed restriction will assist in managing vehicle speeds in the vicinity of the junction serving the new housing estate, a recently constructed residential development. The reduction in approach speeds will improve intervisibility, increase available reaction times for drivers, and enable safer ingress and egress for vehicles accessing and exiting the development.

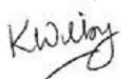

The proposal is therefore intended to:

Improve road safety for all highway users;
Ensure a consistent and appropriate speed hierarchy along the route;
Reduce the likelihood and severity of collisions; and
Facilitate the safe operation of the highway network, particularly in relation to new development traffic.

The proposed Order is considered proportionate and appropriate, having regard to the character of the road, existing traffic conditions, and the need to secure the expeditious, convenient and safe movement of vehicular and other traffic.

The proposals are detailed in the Public Notice and are contained in the proposed Draft Order.
